(954) 592-1451

I am seeking a Critical Care Registered Nurse position that will utilizes my strong problem

solving and clinical skills that I have gained from many years of varied

nursing specialities , which includes Acute Care, Skilled Nursing, and Assisted

Living Managerial experience.

Authorized to work in the US for any employer

Work Experience

Endoscopy RN

Cambridge Health Alliance - Somerville, MA

July 2019 to Present

Work per-diem in hospital based endoscopy center. Working as a nurse in the pre,post, and procedure area. Assisting with procedures done under general and moderate sedation. Epic based EMR system.

Critical Care Registered Nurse MICU

Boston Medical Center

June 2016 to Present

I am a staff nurse on a MICU in a level 1 trauma hospital. On this unit we care for patients with multisystem organ failure. We receive septic, drug over dose, pulmonary hypertension, and renal patients who require critical care nursing. Our patients are usually intubated and require the titration of multiple medications, to include vasoactive drugs and sedation..Some patients require CVVH, which I have been trained. We perform moderate sedation on the unit and I assist with procedures such as upper and lower GI scopes and any bedside procedure the patient may require. I also have worked and continue to work per diem in the trauma ED. I am TNCC and ENPC certified

Critical Care RN Emergency Room

Boston Medical Center - Boston, MA

June 2016 to Present

Emergency Room RN

Lowell General Hospital

June 2015 to January 2017

in a community hospital emergency room. On an average day our emergency room had 150+ patients. I cared for patients that were experiencing strokes, NSTEMI's, trauma victims, STEMI's, Respiratory failure requiring intubation and Ventilator intervention, and a variety of other illness.

RN/ Charge Nurse

Emerson Hospital

March 2014 to December 2016

Registered Nurse on the Telemetry/Orthopedic floor. This is a 25-bed acute care unit, which receives patients with cardiac, surgical, and medical needs. I cared for patients who have had postoperative joint replacement, spinal surgeries, and neck surgeries. I manage patients requiring diltiazem and heparin drips due to conditions such as Rapid Atrial Fibrillation. I function as the charge nurse on my scheduled shifts, which includes supervising and delegating to staff to include 2 staff RN's and a PCT. I am telemetry and ACLS certified.

West Boca Medical Center, Boca Raton, Florida 7/2013-9/2013 Intensive Care Unit- Preceptorship

I completed my 160 precept hours on a 20 bed intensive care unit. During this precept time I completed electronic medical record documentation using the Cerner product. I learned to care for critically ill patients on ventilators. I perfected my assessment skills. I learned how to titrate cardiac medications such as levophed and dobutamine. I learned how to titrate diprovan on ventilator patients and conduct drug holidays to check responsiveness. With the assistance of my preceptor I administered blood, Intravenous medications via piggyback and IV push, and documented the administration in the electronic medical record. I also learned how to monitor, level, and draw blood from arterial lines. I thoroughly enjoyed the time I spent in the ICU and reinforced my desire to practice bedside nursing in the hospital.

Nurse On Call

Port Saint Lucie, FL

November 2011 to January 2014

LPN/RN

I worked as a PRN home health nurse. I assessed homebound patients' needs and conditions. I administered IV medications and injectable medications as ordered by the physician. I initiated IV therapy and venipuncture as ordered. I performed wound care to include the wound vac and the use of advanced wound care products. I participated in Case management with the RN, Physician, and family to ensure exceptional patient care.

Services Director

Fountainview - West Palm Beach, FL

July 2009 to March 2012

I worked as the Administrator for an 86 bed assisted living facility. I directed the hiring, evaluation and scheduling of all assisted living personnel. I ensured that the human resources manager had complete and current employee paperwork required by the Agency for Health Care Administration. I monitored staffing schedules and eliminated unnecessary overtime. I reviewed and assured coverage for all shifts. I evaluated resident health and practical care needs before and after periodic intervals. I developed the Resident Service Plans as needed, assuring resident needs were addressed. I evaluated that periodic

maintenance tasks were performed as needed in the Assisted Living Building. and completed all state and facility required documentation to include Medicare documentation. I assessed patients' needs and adjusted care plans as necessary. I communicated with families, physicians, staff, and administration when necessary.
